Universidad Tecnológica Nacional (UTN)
Associate Degree in Computer Programming

Escuela Técnico Industrial Emilio Civit
Industrial Mechanical Technician (High School Diploma)

Experience

Freelance
Full-Stack Developer — 2023- Present

- Designed and developed scalable web applications using Angular and TypeScript.
- Integrated Firebase services for real-time database management, user authentication, and cloud hosting.
- Engineered custom business solutions, including a specialized marketplace and inventory management systems for niche industries.
- Implemented Responsive Web Design and optimized front-end performance to improve user retention and engagement.

Dubbz
QA Tester — 2023- 2025

- Performed comprehensive manual and exploratory testing to identify, document, and track software bugs and regressions.
- Collaborated with cross-functional development teams to ensure software quality and adherence to technical requirements in a remote environment.
- Executed end-to-end testing protocols to validate system stability and user experience across multiple web platforms.

Dubbz
Customer Support Specialist — 2023- 2025

- Documented technical procedures and user feedback to assist the development team in prioritizing feature updates and bug fixes.
- Managed complex client inquiries and resolved service-level issues within a fast-paced, digital-first environment.
